

# Tree Hugger Scavenger Hunt

in the Parks

From Earth Day, April 22  
to Arbor Day, April 29

## CLUES:

- Elawa Park:** Take a rest on a furry friend and look behind you.
- Everett Park:** This tree overlooks those who are at rest forever and has a good view of the most popular sport in the world.
- Forest Park:** When taking a drive through the park don't forget to STOP and look around.
- NorthCroft:** If you drove to this park, you already passed it. Look for its long slender fruit.
- South Park:** This tree loves to watch Americas favorite pastime and was recently trimmed this past February. It took three arborists a whole day to accomplish!
- Triangle Park:** This tree is one of two in the park that an arborist who fear heights might not mind climbing. This one however feels more presidential.
- Waveland:** If one needs to use the facilities, they only need to look to the left on the way in.
- West Park:** This playful tree is almost always first in line for two of the most popular West Park attractions.
