UMBRELLA & TENT POLICY

THE CITY OF LAKE FOREST PARKS AND RECREATION DEPARTMENT ENFORCES RULES PERTAINING TO THE USAGE OF UMBRELLAS AND TENTS AT FOREST PARK BEACH.

RESTRICTED

Tents and other shading devices, including umbrellas are restricted, due to the following:

- Umbrellas can become airborne, therefore making them a danger to people or property.
- Larger tents and canopies block access and visibility to the water's edge, affecting public safety and enjoyment of our beautiful beach.

EXCEPTIONS

The following exceptions have been made to these restrictions:

- Small umbrellas attached to chairs with zip ties or other fasteners. (See beach office for zip ties.)
- Small sun shelters and canopy style structures attached to chairs. It is best practice for these sun protection tools to be placed behind the lifeguard chairs so that the lifeguard's line of vision is not disrupted.

NOT ALLOWED

- Umbrellas that are secured in the sand.
- Canopy tents and any tent structures greater than 48 inches in height and length and requiring anchoring via stakes or weights.

ALLOWED BEHIND LIFEGUARD STANDS

- A sun shelter that is less than 48 inches in height and length that is secured using sandbags - not stakes. We suggest that you place a heavy bag or cooler in the shelter when it is not in use.
- Chairs with an attached canopy.
- Chairs with umbrellas securely attached with clamps.

PLEASE VISIT OUR WEBSITE LFPARKSANDREC.COM FOR THE MOST UP TO DATE INFORMATION ON CURRENT OPERATION DATES, PARKING, AND PRICING.

FOR DAILY WATER CONDITIONS, PLEASE CALL THE BEACH HOTLINE AT [847.234.6702](tel:847.234.6702) #8.
